I understand that this is a formal application for a soil evaluation for a ground absorption sewage disposal system to serve the above described facility on this property and authorize Caldwell County Health Department employees to go on this property for evaluation purposes. I certify the above information to be correct and understand that any permit or report issued as a result of this information will be invalid if it is found to be incorrect. The application is transferable and remains valid for 2 years.. The improvement permit is transferable and remains valid for 5 years from the date of issue so long as the conditions, structures, location and wastewater conditions remain unchanged. **DISCLAIMER; PLEASE NOTE:** In issuing (or denying) improvement and operation permits for septic systems, environmental health specialists, although employed by Caldwell County, are acting as agents of the State of North Carolina, and are applying rules and regulations promulgated by the State of North Carolina. Caldwell County does not guarantee the performance of any septic system, and is not liable for the failure of any septic system to function properly.
